EXPERIENCE

AI Prompt Engineer 2025 – Present
Handshake *Remote*
- Evaluate AI model responses against structured quality rubrics, identify reasoning errors and factual inaccuracies, and deliver written feedback to improve model outputs.

Founder and CEO November 2024 – Present
NnR Technologies *Waxhaw, NC*
- Founded a startup delivering custom software and automation solutions for schools, medical offices, and businesses; self-taught full-stack development and built client base through direct outreach.
- Generated five-figure monthly subscription revenue across 8+ enterprise clients including Scott Clark Toyota; achieved a $53,000 valuation through MassMutual's Startup Program.
- Currently developing ORbit, an AI-powered sales onboarding platform in pre-seed stage.

Product Research Consultant 2025 – Present
GitHub *Berkeley, CA*
- Research developer workflows and competing tools to identify opportunities to improve onboarding, collaboration, and product adoption.
- Synthesize research into prioritized product recommendations, evaluating user needs, implementation tradeoffs, and business impact.

Product Strategy Consultant 2025 – Present
OpenMind *Berkeley, CA*
- Analyze target users, competitive positioning, and potential use cases to inform an early-stage startup's product strategy.
- Translate findings into recommendations for MVP scope, feature prioritization, and go-to-market planning.

Intern, Private Equity Fund Administration June 2025 – August 2025
CITCO Financial *Charlotte, NC*
- Selected for a 5-intern cohort embedded with the side letter management team to identify process inefficiencies in private equity fund administration.
- Prototyped an automation model for key term search in side letter documentation, projected to save $283,000 in annual expenses.

NC Southwest State Vice President 2025 – 2026
Future Business Leaders of America (FBLA) *North Carolina*
- Elected in a record-breaking statewide race to represent 5,000+ members across NC, defeating candidates from the state's largest counties.
- Managed a $30,000 state officer budget, led 90+ officer interviews, and launched initiatives that boosted chapter engagement by 35%.
- Won 2nd Place Nationally in Coding and Programming (2025) among 10,000+ competitors; 1st Place State in Coding and Programming (2025), Programming (2024), and Mobile App Development (2023).
- Previously served as Chapter Director of Innovation after a 60-candidate process; built an AI-powered website and digital training hub for 400+ members, the largest FBLA chapter in NC.

Agri-Tech Intern June 2024 – August 2024
Samhitha Corp *India*
- Contributed to MVP development for a farmer financial literacy app integrating voice navigation and multilingual features; awarded Best Pitch at internship showcase and received a $60 development grant.

Co-Founder March 2022 – Present
Tech Dreams 4 Kids (501c3) *Charlotte, NC*
- Raised $5,000+ to distribute 60+ refurbished computer kits to underprivileged students; lead a 5-officer team overseeing network infrastructure and digital operations.

Founder and Head Coach January 2023 – 2026
Independent Tennis Coaching Business *Charlotte, NC*
- Built a coaching business training 20+ athletes, generating $3,000 in earnings; designed training programs and delivered adaptive sessions for children with disabilities through Acing Autism.

Server 2024 – 2026
Anjappar Indian Restaurant *Waxhaw, NC*
- Managed customer service and high-volume rush hours in a fast-paced environment; developed communication and teamwork skills.

Tutor September 2022 – May 2023
Kumon *Matthews, NC*
- Tutored elementary and middle school students in math and reading; graded assignments and monitored individual progress.

Freelancer January 2018 – January 2021
Freelance Design and Editing *Charlotte, NC*
- Created thumbnails and edited animations for YouTube and games, boosting online subscriptions by 50%; designed logos, brand guides, and marketing materials for client portfolios.

PROJECTS

ORbit
AI Sales Platform
- Built an AI sales platform with real-time teleprompter guidance and post-call analytics using Python, Flask, HTML/CSS, JavaScript, and Gemini API; pitched to VC investors.

Options and Futures Trading Dashboard
- Aggregated trading alerts, news, and market sentiment into a centralized dashboard with automated daily email briefing on market conditions.

Grub
Campus Errand Marketplace
- Developing a two-sided campus marketplace connecting students needing errands with students available to complete them for pay.

ACTIVITIES & LEADERSHIP
